TO PRESENT TRUCK TO BOYS OF BATTERY B

Club Women Start Movement and Will Raise Subscription.

Club women of San Antonio began a movement Friday to secure funds for the purchase of a light automobile truck to be presented to Battery B, the San Antonio organization in the First Texas Field Artillery, which is about to be mustered into the Federal Service for the war with Germany. The government has supplied the battery with heavy canvas wagons, but a light motor truck for the fast transportation of provisions and other supplies is badly needed by the battery.

Captain Claude V. Birkhead was notified several days ago that the women of San Antonio wished to present the battery with some practical gift before it left San Antonio, and he suggested that the motor truck be the thing most needed at this time.

Captain Birkhead received notice Friday that more than 200 horses for his battery were ready at Fort Sam Houston, and that his six-inch guns and other ordnance supplies were ready at the San Antonio Arsenal. These things, the battery will be fully equipped and ready for the field.

Practically the entire strength of the battery, 180 men, turned out at the armory on East Crockett Street Thursday night for drill. The battery is now fully recruited to war efficiency. It is likely that there will be about 20 vacancies in the organization due to the dependent family provision when the battery is called into the Federal service. For this reason, Captain Birkhead is able to accept a score more of select men. Applicants are requested to report at the armory.
