NEED EXTRA HELP WITH SCHOOL?

1 ONLINE HOMEWORK HELP
Tutors are online, ready to provide elementary, middle and high school level help with math, science, English and social studies (and you can get tutoring in English or Spanish). You can also access practice lessons, worksheets, study guides and videos 24/7. Visit mysapl.org/homeworkhelp.

2 LEARNING EXPRESS
SAT and GED prep books online, 24/7. Work through the practice tests for math, reading, and social studies, or download eBooks on writing and grammar. You’ll also find writing courses and practice tests — visit mysapl.org/learningexpress.

3 WI-FI
Use our free Wi-Fi! We have public computers and printers, and you can borrow a laptop at some branches to use while you’re there. Just bring a USB drive so you can save your files.

4 RESEARCH RESOURCES
Good research means using reliable published sources — beyond Google! We have a wealth of databases for you to find solid, cite-able sources for almost any subject. Try Explora for Elementary School, Primary Search, Explora for High School, Academic Search Complete or MasterFILE Premier, to name a few — explore them at guides.mysapl.org/databases.

5 AFTER SCHOOL ACTIVITIES
We have weekly teen-only (13–18) activities at all of our branches, and some of our branches also have activities just for 9- to 12-year-olds. Stop by after school and make new friends while you learn crafts, watch movies, experiment with new technologies or do other cool stuff. Some branches also offer after-school snacks so you can fuel up before you start on your homework.

6 EBOOKS & EREADING ROOMS
Need to read a book for an assignment and can’t find it? Try looking for an eBook version! Also, we offer eReading rooms that provide a great virtual environment for children and teens to browse within the SAPL digital library. Each is customized to display content only for the particular browsing audience, cataloged by reading level. All titles can be sampled in OverDrive Read prior to borrowing or placing a hold. Visit sanantonio.overdrive.com.

7 TEEN LIBRARY AT CENTRAL
The Teen Library is awesome. There’s a lab that allows 3D printing, a computer lab, free Wi-Fi, gaming space and even a recording studio. And the teen book collection keeps growing, with titles that include teen fiction, STEAM (science, technology, engineering, art and math) materials, manga and graphic novels. The books are available for checkout throughout the Library system.

8 VOLUNTEER HOURS
Do you need service hours for school credit? Join our Teen Library Leadership Council. TLLC members help develop programming and services throughout the San Antonio Public Library. Volunteers must be at least 14.

9 E-AUDIOBOOKS, DVDS & MORE!
If you can’t get hold of the book or the eBook, you can still check to see if we have an audiobook or a movie version. And if you just want to check out DVDs of your favorite TV shows, you can do that too. Check our streaming audiobooks and videos at mysapl.org/digital. Does music help you study and keep going? You can check out up to 10 CDs at a time from our collection.

10 ASK A LIBRARIAN
Librarians are information ninjas. They can help you find those elusive books on obscure historical events or find the answer to complicated reference questions. Talk to them in person (we also have teens’ and children’s librarians) or call them at 210.207.2500 or 210.207.2678. You can also click the Ask icon at mysapl.org or text us at 210.591.7445.

WHO CAN GET A CARD?
Bexar County residents, business or property owners, and City of San Antonio employees are all eligible for free cards.

WHAT WILL I NEED?
Bring photo ID (driver’s license or student ID, for example) and proof of address (if your current address isn’t on your photo ID, you can use something like a utility bill).

WHAT IF I’M UNDER 18?
If you’re under 18 and don’t have a photo ID or proof of address, you’ll need to bring a parent or guardian to show their ID and proof of address.
